Diagnostic Records

The purpose of the diagnostic records appointment is to gather information to accurately diagnose the treatment needs of each individual patient.

The diagnostic records appointment will take approximately 30-40 minutes.

During the appointment we will perform the following procedures for the patient:

- 1) Take Radiographs (x-rays) with our state of the art digital x-ray machine.
- 2) We will take upper and lower impressions for study casts (models).
- 3) Diagnostic Digital photographs.
- 4) A wax bite registration to properly record a patient's bite relationship.

Please remove all earrings and metal hair clips prior to the appointment.

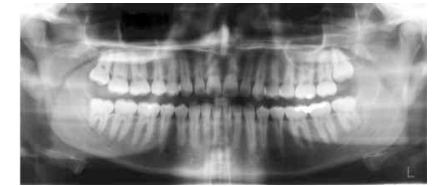

It is also appreciated if the patient could brush well prior to the appointment as well.

DIAGNOSTIC RECORDS FEE

\$ 310.00

The fee for records is due in full at the time of the appointment.

Panorex X-ray

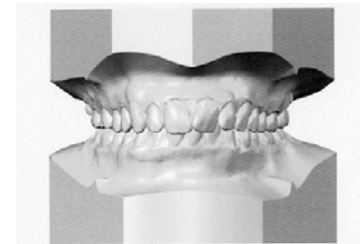

Cephalometric X-ray
